

**Total time: 1.5 to 2 Hours**

## **Front-End Developer Intern**

**Note: You have to use redux and react routing.**

### **Task 1**

#### ***React JS (Quiz with well design)***

First ask name and qualification of user and show on top of the screen and at a time one question show on screen and next button will be disable until any one option will be selected, test should be completed in 5 min otherwise test will be submitted automatic and at the end show results that how many answers are correct and how many are wrong.

**Your time starts now**

**Good Luck!!!**
